SMITH & HERRING.

Big crowd going to Cincinnati Sunday.

Children FREE first day of Lancaster Fair.

Wheat crop has proven almost complete failure.

Grass in the little park has about played out since the drought.

Who dares say all the rain has been held back for the Lancaster Fair?

Only \$1.75 to Cincinnati next Sunday. Train leaves Lancaster at 5 a. m.

Ed Minor, formerly of this city, was badly injured by an automobile near Frankfort.

Gardens were about killed out by the continued drought, and the loss is quite heavy.

The "posting" of the college grounds has proven beneficial. The campus never looked nicer.

The partial eclipse of the sun was plainly visible here Sunday. Old Sol was three-fourths covered at one time.

The license of W. H. Taylor to sell liquor by five gallon lots, expired Tuesday night. Winchester is now the nearest oasis.

The young gentlemen will give two dances during the Fair. Both will be held in Armory Hall and Smith's band will play.

Miss Sue Higgins will begin school at Stony Point next Monday. All pupils are urged to start at the beginning of the term, if possible.

Saturday is the "Glorious Fourth," and the people will be put to inconvenience by closing of the post office and banks. This holiday closing is a great nuisance.

Notwithstanding the continued drought, the lake at the water works plant is full. This is sad news for some of the old croaks who said the artificial lake would prove a failure.

Lancaster High School team defeated the Stanford boys by a score of 7 to 6. It required ten innings to decide the contest. The visitors were a gentlemanly lot of young fellows and the game very enjoyable.

The tender of engine on passenger train No. 11 jumped the track, about half mile from town, Monday night, requiring all-night work by the wreckers to get it back. This delayed No. 10 about three hours Tuesday morning.

Mrs. Rice Benge, formerly of this city, died suddenly at the home of her daughter, in Bryansville. She had been in apparent good health, but died while at the breakfast table, heart disease supposed to have been the cause.

The colored people have decided to hold no fair in Lancaster this year. They claim the expenses would be too great. Heretofore they have had good fairs, and the decision will be regretted by their race in this section.

Opening Ball at C. O. Springs.
The opening ball at Crab Orchard Springs will be given tomorrow (Friday) night. A splendid band has been engaged and the event will be very enjoyable. Quite a number of Lancaster people will attend.

Danville Defeated.
One of the cleanest and best games of ball played this season was that between Danville and Lancaster Tuesday. While the score is a little one-sided, yet the game was full of good plays. Harry Anderson, Lancaster's pitcher, struck out fourteen men. The score was 7 to 1.

A Dangerous Fire.
At 12:30, Tuesday midnight, the large store room of R. S. Brown, on Public Square, was discovered to be on fire and loud peals of the alarm bell soon brought a large crowd on the scene. The blaze had eaten out one of the front, up-stairs, windows and it required two streams of water to check the fire. By careful and systematic fighting the building was saved, but not until about \$4,000 worth of the stock of goods, mostly clothing, was drenched. Many believe the fire was caused by live wires, though the electric light people say this was not probable. Mr. Brown was covered by insurance, and both his large stores will be closed until the adjusters arrive and make settlement. Had it not been for the water works, the entire block would have been destroyed, and that, too, in a very short time.

Made a D. D.

Rev. Jas. Lupton McKee, well known to many Lancaster people, received the degree of Doctor of Divinity at Park College, Kansas, last week, and received same degree at Central University, Danville. Dr. McKee is now pastor of the Fifth Presbyterian church in Kansas City. He is a son of the late Dr. J. L. McKee.

Verdict for \$1,800.

The case of Miss Dolly Joslin against the L. & N. Railroad Co., consumed several days in the circuit court, a verdict for \$1,800 being given Saturday. Miss Joslin, with her mother, was struck by passenger train No. 29, at the Price crossing near town about one year ago. The mother was given a verdict for \$4,000 some time ago, but the court of appeals reversed the case, and it is to be tried again.

Union Meetings.

The regular summer union meetings were resumed Sunday night, Rev. J. H. Williams preaching at Methodist church. These services will be held every Sunday evening, each time at a different church and with sermon by the several pastors. Next Sunday evening, at usual hour, Rev. Bush will preach at the Baptist church, and the people should turn out in large numbers to hear the new minister.

Dies in Nicholasville.

After a brief illness, Mr. Thomas Stone died at the residence of his son in law, in Nicholasville, Sunday. Mr. Stone was born and raised in Garrard county and was well known as an honorable, upright citizen. He was taken suddenly ill while in Lexington, and brought to Nicholasville, living only a few days. He was in his 87th year, and had always been a faithful member of the Baptist church. He resided for many years on the Crab Orchard pike, having bought part of the John Gill farm. Funeral services were conducted by Rev. Mr. Bush, at Baptist church Monday morning, the burial taking place at the Lancaster Cemetery. Mr. Stone leaves several grown sons and daughters.

Wheat Crop a Failure.

For several months, the prospects for a fine crop of wheat were very flattering, but, upon threshing, it has been found that there will not be near a half crop in Garrard county. This was caused, so we are told, by rust, together with the protracted drought. The heads looked fine, but proved to be mostly chaff with little grain in them. This means a great loss to the farmers, and the keeping away of many dollars they hoped and believed they would receive. As prospects for hemp are poor, and the fact that little or no tobacco was planted in the county, the farmers are not in the best of spirits. Mr. W. J. Lounsbury, the leading hemp man, of Lexington, is quoted as saying that there would not be more than half a crop of hemp in Kentucky.

I. O. O. F. Hall Dedicated.

The Stanford Journal gives lengthy write-up of dedication of the handsome Odd Fellows hall in that city Friday night. A great many of the Lancaster brethren were present. The Journal says:—The keys were then delivered by J. W. Ireland. Noble Grand, to Rev. F. M. Tindler, of Lancaster, who is acting Grand Master, and he officiated in an efficient manner and conducted a very beautiful and most impressive service. He set forth in his dedicatory ceremony the tenets and precepts of the order in a forceful address. After the interesting ceremony the many visitors and members were invited to the store room under the lodge room, where light refreshments were served. The room was attractively decorated with ferns and potted plants, much of the credit of which is due Mrs. Jesse D. Wearren, who labored faithfully for the success of the occasion.

Difficulties in Life.

Man comes into the world without his consent, and goes out of it against his will, and the trip between the beginning and the ending is exceedingly rocky. The rule of contrast is one of the features of the trip. When he is little the big girls kiss him. If he is big, then the little girls kiss him. If he is poor, he is a bad manager, if he is rich, he is dishonest. If he needs credit, he can't get it, if he is prosperous every one wants to do him a favor. Yes, the road is rocky, but man loves to travel in it, and after all there is a good deal of satisfaction to be gotten out of it, especially if we are willing to give one another a show.

Jim Adams, one of the men implicated in wounding Mr. S. D. Rothwell, at Dripping Springs, was fined \$100 and six months in jail at hard labor.

Cattle Sale.

W. S. and R. A. Reazley sold 165 export cattle, weight 1515, at \$0.25 per hundred. They were shipped to New York on special train to-day.

Mrs. Charles Davis is visiting relatives in Lebanon Junction.

Mrs. Jacob Joseph is in Eaton, Ohio, visiting her parents, Mr. and Mrs. Fox.

Many young folks will attend the opening ball at Crab Orchard Spring tomorrow (Friday) evening.

Mrs. T. L. Wall and daughters, Mary and Margaret, of Somerset, are visiting their uncle, Mr. T. L. Broadus.

Miss Bessie Elkin, of Louisville, will arrive to day for a visit to Mrs. J. S. Johnson, and other Lancaster relatives.

Miss Sue Anna Lear entertained a party of friends Monday evening in honor of her cousin, Miss Annie Lee and Margaret Woolfolk, of Lexington.

David B Hill is in Europe and just before he sailed declared that he would never have anything more to do with politics. Hill played the game with a high hand and no doubt knows the ins and outs of the business. He holds that the political boss is the most serious menace that today confronts the American people. In this he no doubt includes all the ramifications that include the work of the boss. He may be right in his conclusions, in which instance the situation is not to the credit of the people of the country.

Even Japan does some things better than they are done in this country. In the matter of forest protection she can teach this country a few lessons. Japan has a system of wood lots, so called, that takes very good care of the forest problem. These lots are protected to the extent that their acreage remains practically the same. This is accomplished by constant planting. When a tree is cut another must be planted to take the place of the one cut down.

The Philippines are advancing in civilization and will soon be ready to be full-fledged Americans. Two of them recently held up an army paymaster and relieved him of ten thousand dollars. A few incidents of this kind will be all that is necessary to convince the authorities at Washington that the little brown men are ready for self-government.

The wineing and dining of delegates to conventions has just about fallen to innocuous desuetude, a consummation that is delightful in the extreme. The fellow who hangs around conventions in the hope of getting full at the expense of some candidate or his friends is a nuisance that is beyond all forbearance.

No one objects to the early riser, if he will keep it to himself, but when he persists in getting up early and then proceeds to play the part of an alarm clock for the neighborhood he strains the patience of the nearby persons who are trying for the last forty winks.

An Eastern woman automobilist admitted that she was exceeding the speed limit. The admission was so much out of the ordinary that the court did not know whether to fine her or appoint a lunacy commission to determine her sanity.

The most popular fellow at conventions, banquets and other speaking contests is the man, who, though among the first on the program, does not take up the time that the other fellow wants for himself.

Some one has invented a noiseless gun. If some one desires to be a real benefactor to the race he will proceed to invent a noiseless motor, now that the campaign is about to open.

There are a whole lot of people who can not tell the difference between dyspepsia and piety. They think that they are mighty good when they have a case of very common indigestion.

The campaign button and the festive candidate cigar will soon be much in evidence. The first is harmless; the latter looks that way, but it deceives its looks very much.

A girl out in Nevada, by the name of Dollar, is to marry a man by the name of Senitz. Perhaps just a case of making change.

The way the price of beef keeps up in the air it would seem that the bovine has solved the problem of navigating the air.

The people who never will forgive us have our thanks for helping relieve the deadly monotony of existence.

When you are sure the other fellow is crazy, take expert advice as to your own mental condition.

Too bad that Lent doesn't come in summer time, for we could so gladly give up mosquitoes.

It is easy for some people to do right who nevertheless sometimes prefer difficult things.

Advice to girls: If you marry a millionaire, never let him forget that he's a millionaire.

Anybody can start a quarrel, but it takes a hero to see it to a hot finish.

Boy's Life Saved.

My little boy, four years old, had a severe attack of dysentery. We had two physicians; both of them gave him up. We then gave him Chamberlain's Colic, Cholera and Diarrhoea Remedy which cured him and believe that saved his life.—William H. Strouling, Carlton Hill, Ala. There is no doubt but that this remedy saves the lives of many children each year. Give it with castor oil according to the plain printed directions and a cure is certain. For sale by F. F. Why They Go.

Some go to church to worship God, while others go to show and find. Some go for help to bear their woes, while others go to show their clothes. Some go to church to hear the preacher, and some to hear the solo singer. Some young men go to reconnoiter, the girls all go because they order, some go to help their souls' dejection, but few go to swell the church collection.

A "Rainbow Sundae".

Out in a local option town in Missouri they have invented a new drink called a "Rainbow Sundae." Two drinks of it caused two men to have long funeral processions last Thursday and two more are in jail charged with their murder, with fair prospects of having funeral processions of their own by the hemp route. From reports, this drink is even more deadly than Kentucky's famous "paw paw" beer that is dispensed in some of the mountain counties of the State.

Die At Ripe Old Age.

Eliza Jane Turpin was born near Hyattsville, Ky., Feb. 24, 1813, and died June 23, 1908, being 95 years of age. She was a daughter of Jeremiah and Nancy Turpin, the first settlers and pioneers of Garrard county, coming across the mountains of Virginia horseback, bringing their negroes and household effects on horses. Her parents are buried at Hyattsville. She was the second wife of Salem Wallace, of Madison county, and was the mother of nine children, eight of whom lived to be grown. There are five living children—William, Salem and Henry, and two daughters, Mrs. Ann Robinson of Lancaster and Mrs. James Francis, of Paint Lick. She received a fall that injured her hip from which she never recovered. Rev. G. L. Kerr, of Milledgeburg, conducted the funeral services at the home, after which the burial took place at Richmond. She was visiting, a few days before the fall and had lived a very active and useful life. Her children can truthfully rise up and call her blessed. Her life was a benediction to them, and the old homestead will no longer be a "Home Coming" to them. She was the oldest woman in Western portion of Madison county, and the oldest member of New Hope Presbyterian church of Madison county. She was the mother of the late O. T. Wallace, so well known and beloved by all who knew him. Mrs. Wallace was a woman whose good deeds will live many years after she has passed to her reward, and her memory will ever be cherished by all who knew her.

Resolutions.

At the convention held at Antioch last Sunday, the following resolutions were adopted: We your committee on resolutions beg leave to make the following report:

1st Be it resolved that a County convention be arranged for each year as a great awakening and enthusiasm is the result and prospects for better work.
2nd Further resolved that each Superintendent adopt and use the splendid suggestions presented by R. M. Hopkins, viz: 1 A varied program; 2 In individual acquaintance with each pupil; 3 That every worker of the Bible School go after those who did not attend.

3rd That we delegates desire to express our warmest thanks to the people of New Antioch for beautiful lunch prepared and for all the kindness and hospitality shown us in various ways. Further that we thank Miss Carrie Arnold for her able services as Secretary.

4th That we feel deeply the loss of J. A. Sanders whose death occurred only a few days ago, and that we emulate his noble characteristics in our lives and work. He was a faithful officer of his church and always ready to stand by and support the cause of righteousness. We most earnestly pray the blessing of the Lord upon the family and the church, and that they may find consolation in the promises of God.

He is from one of the oldest and most aristocratic of Kentucky families and a man of bright intellect and culture. Miss White is a sweet attractive young woman with many friends.

Farm and Stock.

Corn looks fairly well after the parching sun of this week. It has nearly all been plowed and is free of weeds, but it must have rain very soon.

The hemp looks well, hay is about all cut and gotten together in good shape and this is the first time in years that rain has not interfered with the harvest.

Everything is dull in the horse market, especially thoroughbreds. De Neet, who has phenomenal luck in breeding and selling for sensational prices, will not make a shipment this month.

Benjamin Hinnicut, of Minas, Brazil, purchased six registered Berkshire pigs in Fayette, for the agricultural college at Lavras. Two other pigs were presented by the farm to the college. The Brazilian party left for Eminence, Kentucky, where Mr. Hinnicut expects to buy several head of Herefords. From Eminence they will go to Shelbyville to purchase Jersey cattle and Poland China pigs. These purchases will be exhibited at the National Exposition now in progress in Janeiro and afterward at the State Fair of Minas.

The army of the Equity Society will invade Louisville on Friday of State Fair week in September. The Society is expected to attend anywhere from 25,000 to 50,000 strong, and before assembling at the Fairgrounds will form a mammoth parade, marching through the streets of Louisville. The committee having the affair in charge decided to organize an escort of honor for Miss Alice Lloyd and ask her to participate in the procession in recognition of her defense of the Equity grower a few months ago.

It seems that every force in nature is trying to compel the farmer to practice a rotation of crops. If corn is grown for several years on the same plot, the land will be infected with all manner of insects, from the root o

After Lukewarm Members. The Rev. I. J. Spencer, pastor and officers of the Central Christian church of Lexington, after the services last Sunday night submitted to the congregation a proposition that lukewarm members who do not regularly attend or contribute to the church shall no longer have the right and privilege of being members in good standing, and shall not be given letters entitling them to full fellowship to churches in other communities, but shall be placed on a probationary list, from which they may be taken back into full fellowship, should they show a tendency to overcome their delinquencies. As far as known here, this is the most radical action ever proposed by a church in Kentucky or possibly elsewhere in the United States and on account of its far reaching effects and importance, the board of church officers who submitted the proposition suggested that a vote upon it should not be taken by the congregation until next autumn, thus giving full opportunity for its consideration.

Skin Cancer Cured

Here is what Dr. C. M. H. Wright's brother, Mr. O. L. Hayden, writes:
"D.D.D. cured me of skin cancer for which I had used X Ray with seemingly satisfactory results, but while I believe in the X Ray treatment, I must say that the cancer broke out again. When used D.D.D., however, it cured me permanently and now there is not a sign left of the disease."
O. L. HAYDEN, Chicago, Ill.
March 24, 1908.

All Skin Troubles Vanish
when D.D.D. treatment is used. Cure the skin through the skin. We carefully investigate the merits of this prescription before putting it in stock and now recommend it in the highest terms. The best skin specialists endorse D.D.D.

DR. WRIGHT'S STATEMENT
I have worked for many years in harmony with the physical class in surrounding towns, and hesitate to appear in print, but I shall speak my mind.
"Mr. O. L. Hayden is my brother and his cure by D.D.D. Prescription came under my personal observation. He is a prominent practitioner, recommends D.D.D. for skin diseases.
"Other patients suffering from skin trouble have used my remedy with good success. I always keep a bottle with me and shall be glad to speak a good word for your preparation whenever I can."
MRS. THE C. M. H. WRIGHT.

R. E. McRoberts. FREE to any sufferer from skin disease who has not yet tried D.D.D., a sample bottle free. Write direct to D.D.D. Co., 112-110 Michigan St., Dept. Chicago, Ill.

THE RAY & WALKER GREAT RELIABLE WATER FILTER.

The old adage, an ounce of prevention is worth a pound of cure, this, the Great Reliable, carries out by separating from the water all accumulations of the roof and gutter, such as bugs, leaves, dead birds, and other insects. It is reliable because it is always ready for next rain. You don't have to get up in the night to turn the cut-off to wash the roof. The Reliable is always ready for anything coming. Nothing is allowed to go into the filter to contaminate the water as it passes through it. It is the simplest constructed filter ever made, and the easiest to clean. If you want to avoid fever and have good health in your family, the most essential thing is pure water. The reliable will insure you this. The charcoal receptacle can be easily removed and the charcoal washed or fresh coal put in without disturbing the filter. The stand pipe on inside of filter has drain holes covered with fine wire gauze that makes it anti-freezing. It sells for less than any patented filter made, and a glance at our filter will insure you it is the best.

AGENTS WANTED.

We want agents in all parts of the country. Guttering, Spouting, Pumps, Etc., furnished by us on application. For particulars address

Ray & Walker Filter Co., Buckeye, Ky.

A FEW APPROVALS.

I have made examination of the Ray & Walker Filter, which is being manufactured by the Muncy & Fitzpatrick Co., of Lexington, Ky., and consider it the simplest and best filter on the market. J. C. Carrick, M. D., President of Board of Health.

I have examined the above-named filter and consider it the best I have ever seen, from a sanitary point of view. N. H. Simmons, M. D., Health Officer City of Lexington, Ky.

Having examined the Ray & Walker Patent Filter, manufactured by Muncy & Fitzpatrick, I can heartily endorse what Doctors Carrick and Simmons say for it. Porter Prather, M. D., on Board Health.

Stop That Cold

To check early colds or grippe with "Preventics" means sure defeat for pneumonia. To stop a cold with Preventics is easier than to let it run and to add to cure it afterwards. To prevent pneumonia will cure even a deeply seated cold, but taken early—as the onset stage—then break of lead of these early colds. That's surely better. That's why they are called Preventics. Preventics are little family cold cures. No quinine, no glycerine, nothing sickening. New for the children and the family sale box. If you feel chilly, if you sneeze, if you are all over, think of Preventics. Throughout may also save half your uneasiness. And don't forget your child. If there is a feverishness, night or day, Herbin probably has Preventics. It is a little white pill, to be taken for the cold, also in the form of a Preventic. In fact, on your drugstore giving you
